

Ben Thackeray

Protools Engineer/ Engineer

Relaxed, friendly, talented and unflappable, Ben is the perfect man to have at your side in the studio. Combining a fantastic knowledge of studio operations with the kind of chilled out demeanor that's essential to smooth and enjoyable sessions, he's been busy of late with the likes of Bloc Party, Roots Manuva, Sunshine Underground, Kevin Shields and Boy Kill Boy.

Starting his career at Mark Angelos Studios, he then moved to Mayfair Studios where he earned his spurs as a highly reliable, hard-working and knowledgeable assistant. In 2003 he left Mayfair studios to join Miloco studios as an assistant where he swiftly graduated to engineer.

Imbued with a frankly legendary calming influence and a first class knowledge of Protools, he's allied these skills with the know-how built up over years working alongside some of the industry's top producers, not least Steve Dub.
